

# ALSPEC SNIB GUARD

*"Provides additional security to any existing Alspec screen door."*

## PRODUCT DETAILS

The Alspec Perspex Snib Guards are designed to fit on any existing screen door lock, held on via the door furniture, providing extra protection for your screen doors and against would be intruders.

The snib guard is designed to prevent intruders from unlocking your door by reaching their fingers through the fly mesh while also providing additional protection against mesh damage from fingernails or engagement rings etc.

Installation is simple, as the snib guard slots onto the internal door furniture before it is screwed onto the door and does not interfere with the spline channel or mesh in any way.

## APPLICATIONS

- Works with all Alspec screen and security doors
- Suitable for both left and right handed applications
- Held on by door furniture, no extra fixings required
- Does not interfere with spline channel or mesh
