

5 Wheel Roller

Proudly partnered with:

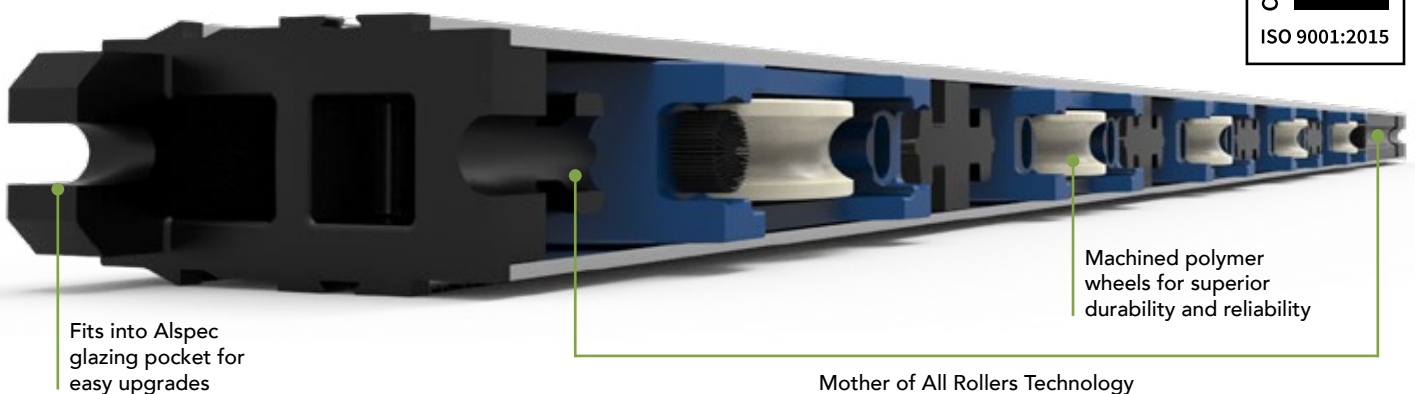

The Mother of All Rollers

Mother of All Rollers Technology

CiiLOCK's engineers have created an innovative solution that incorporates Roman arch technology to overcome the issues associated with conventional "See-Saw" style of rollers.

- Minimum panel width of 1300mm
- Reduced operating force*
- Self-levelling
- Eliminates all bending forces
- Easily adjust under load
- Self-locking screw

Features

- Up to 400kg panel weight
- Full self-levelling and fully adjustable
- 5 wheels
- External aluminium chassis
- 14mm of height adjustment

Benefits

- Reduced operating force* - Easy gliding
- Higher load capacity
- 10 wheels on each panel to provide better load distribution

* Compared to the CiiLock 3 wheel roller

Quick and Easy Adjustment

Designed to make installation for fabricators effortless.
