

REINFORCED FOIL TAPE

"Solutions for the glazing industry!"

proudly partnered with

TESA 51495

Tesa reinforced aluminium tape is engineered for excellent thermal insulation, heat and radiation reflective properties and a built in vapour barrier to provide you with unbeatable protection and insulation on any job. The release liner is designed to allow quick and easy unwinding while still providing high bond strength to any surfaces.

FEATURES

- Release liner for ease of unwind
- Thermal insulation properties
- Vapour barrier
- Heat and radiation reflective properties
- Excellent adhesion to own backing
- High bond strength

PRODUCT SPECIFICATIONS

Backing Material:	Aluminium foil reinforced with P.E.
Release Liner:	Silicone coated paper release
Adhesive Type:	Rubber/resin
Total Thickness:	0.17mm without release liner
Tensile Strength:	120N / 25mm
Adhesion to Steel:	25N / 25mm
Service Temperature:	-20 to 80°C
Colour Available:	Silver

ITEM NO.	DESCRIPTION	BOX QTY
