Unity Security Screen Door Lock

The Unity Security Screen Door Lock provides seamless entry into your home. It can be paired with your Unity Entrance Lock so that once your screen door unlocks, so too will the the entrance lock*.

Pair with your Unity Entrance Lock!

DualDoor™ Technology

Gain seamless entry when paired with your Yale Unity Entrance Lock and Yale Connect Plus.* Once your security screen door unlocks, your front door will too.

Tailor User Access

Use the Yale Access App, Contactless Key Tags or upgrade with the Yale Smart Keypad** to access your lock.

Auto Unlock/Lock

Auto unlock your door as you walk up to it, without the need to take out your phone. The integrated door position sensor tells you if your door is open or closed.

*DualDoor™ Technology requires pairing the Unity Security Screen Door and Unity Entrance Locks with Yale Connect Plus or two Yale Connect Bridges (one per lock) to operate.

**Yale Unity Entrance Lock, Connect Plus and Smart Keypad sold separately.

Unity Security Screen Door Lock

Gone are the days when you have to search around for your keys. Now you can control your front door and your security screen door with the Yale Access App, contactless key tag or Yale Smart Keypad*.

With Yale Access you can:
• Lock and unlock your door via your mobile device
• Grant access to others for one time access
• Grant access for a set period of time or a date range
• Keep track of visitor access

Think of the times when you walk up to your front door and have to search your bag or pockets for your house keys. Now imagine walking up to your front door and your lock unlocks the door as you approach!

Using multiple technologies including Bluetooth, Wi-Fi and GPS, as well as the Yale Access App, the auto unlock feature unlocks your door as you approach.

The Unity Security Screen Door Lock has patented digital deadlocking technology, locking both the internal and external handles of your lock when using your smart device or contactless key tag.

Need a premium security solution? An optional 3 point lock kit is available with your Unity Security Screen Door Lock. Activating these auxiliary locks is as simple as lifting the lever.

Lock alert indications show users the lock mode via an inbuilt LED. The lock has three modes: Unlock (green), Locked (yellow) and Secure (red). You can also press the internal electronic button to lock and unlock from the inside.
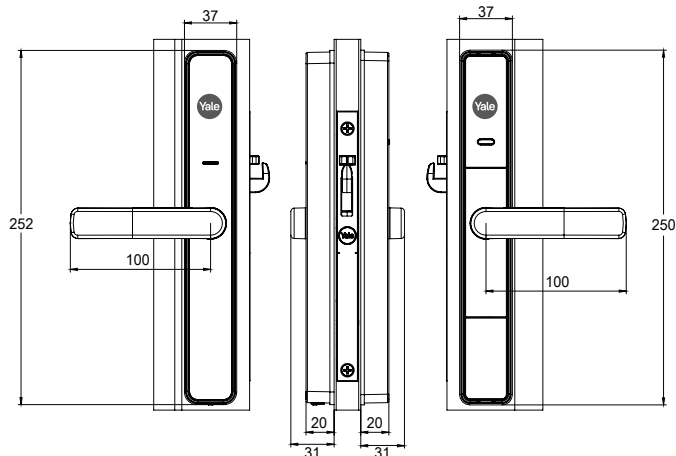

The inbuilt door position sensor checks the status of the door and tells you if your door is securely closed and locked. This avoids inadvertently locking your door while the door is open.

The Unity Security Screen Door Lock works with Amazon Alexa, Apple HomeKit and Google Home. You can control your lock with your voice using Alexa, Siri or Google Assistant.

The Unity Screen Door Lock meets Australian lock standards AS4145.2:2008, SL6 and D7.

Yale Connect Plus Wi-Fi Bridge and Smart Keypad sold separately.

Unity Entrance Lock

Designed specifically for the Australian market, the Unity Entrance Lock has patented digital deadlocking technology allowing you to lock both the internal and external handles on your door.

The Unity Entrance Lock has three modes: Unlock (green), Locked (yellow) and Secure (red) - all indicated by an inbuilt LED light. Controllable by either your Yale Access App, Contactless Key Tag or the Yale Smart Keypad*, the Unity Entrance Lock provides you with a range of options to control your lock.

The Yale Access App allows you to lock and unlock your door, grant access to others and keep track of visitor access, all via your smartphone. Grant users one-time access, access for a set period of time or a date range and avoid any lost, stolen or copied keys.

Using Bluetooth, Wi-Fi, GPS and the Yale Access App, the auto unlock feature unlocks your door as you approach it.

The Yale Unity Nexion Retrofit Kit* offers customers the option to upgrade the Lockwood Nexion Mechanical and Nexion Keyless Entrance Locksets to a Yale Unity Entrance Lock. This includes a latch and 3 sizes of strike plates to cover 35-45mm thick jambs. With their metallic finish, the latch and strike plates ensure a clean, high-quality appearance. The latch and strike plates are also designed to accommodate Yale Unity's door position sensor.

This door position sensor checks the status of the door and tells you if your door is open or closed, giving you the peace of mind that your door is secure when locking up.

The Unity Entrance Lock can be upgraded using the Yale Connect or Connect Plus Wi-Fi Bridge*. This allows you to access your lock from wherever you are in the world. Remote features include the ability to lock, unlock, manage user access and update lock settings.

The Yale Connect Bridge enables integration with your Google, Samsung or Alexa smart home hubs. The Unity Entrance Lock is also Apple HomeKit compatible (see Lock Compatibility Table on p.19 for details).

With the Yale Smart Keypad*, you can lock and unlock your door via PIN codes.

The durable metal Yale Unity Installation Template* is tradesperson friendly - particularly where multiple or ongoing installations are required.

The Unity Lock meets Australian lock standards AS4145.2:2008, SL8 and D8.

*Yale Connect, Connect Plus Wi-Fi Bridge, Yale Smart Keypad, Yale Unity Nexion Retrofit Kit and Yale Unity Installation Template sold separately.

NOTE: Yale Unity Nexion Retrofit Kit not suitable for use on fire door applications.
