# SUPASEAL PU SEALANT

Proudly partnered with

*"The polyurethane sealant free of Isocyanate and other hazardous raw materials"*

## PRODUCT DETAILS

Supaseal PU is a one part, moisture curing Hybrid Technology Sealant that displays excellent performance characteristics including +/- 25% Joint Movement capability. Supaseal PU has been carefully developed to be low modulus, meaning that it is easy to extrude, is easy to tool and maintains Non-Slump characteristics, even in high temperature and high humidity climates.

Supaseal PU is a technically advanced material designed for Construction & Industrial sealing applications, while also offering the end user a safe, less hazardous material to work with on a daily basis. Most importantly, Supaseal PU is Isocyanate Free and contains no solvents.

## APPLICATIONS

- Construction Joint Sealant
- Vertical and horizontal expansion joints
- Non fire rated pipe penetrations
- Perimeter seals around doors, windows and facades
- General purpose interior joint sealant applications
- Sealing and bonding metal roofing systems
- Automotive and marine applications requiring a flexible adhesion profile between substrates

Available in single 960g sausage or in box of 20.

## TESA 51008PV3

Tesa 51008 is a packaging film based on a polyethylene backing (P.E.) which is very user friendly due to its ability to be torn by hand.

The high tack is achieved by a natural adhesive guaranteeing instantaneous adhesion and a high tensile load. For small widths an age stability of max 12months is guaranteed.

*UV resistant for up to 12 months.*

## TESA 51485

Tesa 51485 is a pvc protective tape designed with a low tack adhesive that leaves no residue upon removal. It is easy to unwind with low curl characteristics making it the perfect choice for the protection of aluminium windows and door frames.

*UV resistant for up to 6 months.*
