

## CUSTOMER TECHNICAL MEMO # 130

**Subject:** View-Max frame gaskets

**Date:** 23/11/11

**From:** Sales and Marketing

We are pleased to advise the availability of new frame gaskets for the fabrication of View-Max Sliding and Double Hung Windows.

These foam gaskets make the fabrication of frames simpler with increased performance, particularly in the reduction of leaks through the frame joint. It is recommended that these gaskets be used for fabrication of all View-Max windows.

The gaskets will be stocked and sold as "Each", that is 1 "each" = 1 gasket. Obviously 2 gaskets are required per frame section. There are eight different gaskets to suit all of the head, sill and transom options in the View-Max system. Details of the gaskets are as follows:

ALSPEC Code	Part Name	Suits Section
378132	VMA18	VM53S
378128	VMA19	VM8
378129	VMA20	VM54
378130	VMA21	VM34S
378131	VMA22	VM28
378133	VMA23	VM51S
378134	VMA24	VM52S
378135	VMA25	VM10S

If you have any questions please do not hesitate your Area Manager.

Kind Regards,  
Sales & Marketing
