

CUSTOMER TECHNICAL MEMO # 183

Subject: McArthur 150mm Offset Pocket Framing Technical Manual Update

Date: 14/10/13

From: Product Development

Please note we have updated the McArthur 150mm Offset Pocket Framing Technical Manual with the following changes.

- Mullion seal MS6 has been corrected on the Hardware and Detail pages.
- AS907 Offset HD Male Mullion and AS908 Offset HD Female Mullion have been added to the Extrusion, Windload, and Manufacturing pages.

Due to the number of amended pages it is recommended you print an updated copy of the manual rather than replace existing pages.

A copy of the updated Technical Manual and dwg drawing files can be found on the ALSPEC website by clicking on Commercial Framing link and then clicking on McArthur 150mm Offset Pocket Framing.

The Wall Chart on the website has also been updated to include AS907 and AS908.

If you have any questions please do not hesitate to contact your local ALSPEC Area Manager or Sales Office.
