

## CUSTOMER TECHNICAL MEMO # 214

**Subject: Alspec Bushfire BAL40 Compliant Products**

**Date:** March 2015

Bushfire requirements are now a major part of building design and window selection. Testing has been undertaken on a range of Alspec Products to meet these bushfire requirements as outlined in AS1530.8.1 (BAL40).

The following Alspec products are fully tested to achieve BAL40 requirements;

**Test Report Number: FSZ1662A**

- McArthur Fixed Light Frame
- Hunter Evo Fixed Light Frame
- ProTilt Awning/Casement Window
- Swan Hinge Door
- ASW44 Top Hung Awning Window
- ASW44 Casement/Awning Window
- AS85 Awning/Casement Window
- ViewMax Double Hung Window
- ViewMax Sliding Window
- Hawkesbury Bi-Fold
- Breezway Altair Louvre & Invisi-Gard screens (Australian First)

**Test Report Number: FSZ1663A**

- ProGlide High Performance Sliding Door
- (Note: Minimum glass thickness required is 6mm toughened for all products.)
