

CUSTOMER TECHNICAL MEMO # 310

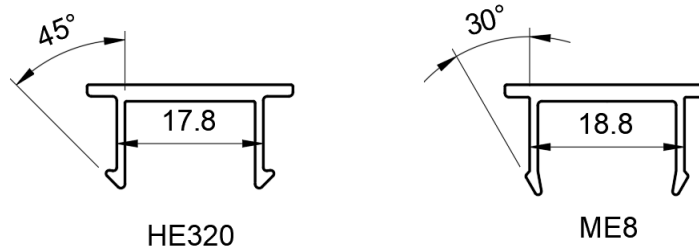

Subject: HE320 TO ME8 Transition + MFE55 Release

Date: 13/12/2017

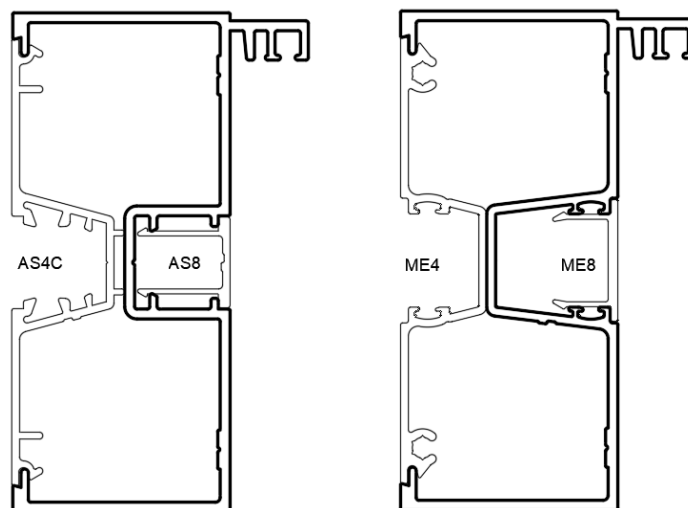

Good Morning,

During the development of McArthur Evo 19mm pocket upgrade, the ME8 pocket filler was created as an improvement over HE320 which will now be made obsolete.

ME8 has an improved 30 degree lead in, and has been widened to 18.8mm to tighten up the fitment in the pocket as per below.

As part of the ongoing transition to the 19mm pocket. The Hawksbury MFE5 Jamb has now be upgraded to suit ME8 pocket filler and ME4 glazing adaptor, and will be known as MFE55.

If you have any questions please do not hesitate to contact your local Alspec sales rep.

Regards,

Product Development
