

Environment Management Policy

Doc No: HSE01.POL.003

Version No: 2.0

Issue Date: 31.01.2020

Next Review: 31.01.2022

Owner: National HSE Manager

Approved By: Managing Director

Alspec recognises that environmental conservation is one of the important issues of our community. We recognise the importance of maintaining a high standard of environmental care in conducting our activities. Alspec management commits to minimising pollution and contributing towards a sustainable future by operating our facilities in a manner that reaches a balance between environmental, technical economic and social objectives.

In meeting this commitment Alspec will:

- Maintain a Health, Safety and Environmental Management System;
- Recognise and complement other organisational policies and procedures where relevant;
- Set objectives and targets that define the reduction of impacts on the environment through conducting risk assessments and impact analysis;
- Manage operations in compliance with applicable laws, legislation, regulations, standards and codes of practice that minimise any adverse impact on the environment;
- Conserve resources, minimising waste and seeking continual improvement of processes to protect the environment;
- Communicate and consult with employees, customers, suppliers, contractors and the community on environmental issues where relevant;
- Provide appropriate training for awareness and education to employees on environmental issues and specifically to individuals with environmental responsibilities;
- Ensure all work practices comply with our Health, Safety and Environmental Management System and legislative obligations;
- Require all contractors to operate in an environmentally responsible manner and adhere to Alspec and legislative environmental requirements;
- Regularly review performance, identify and implement corrective and preventative actions that contribute to continually improving the environmental performance of our operations.

Alspec cares about the environment and are continually striving to eliminate or reduce risks so far as reasonably practicable.

Paul Nakhle
Managing Director
