

ELEGANCE PUSH2GO HINGED SECURITY SCREEN DOOR LOCK

proudly partnered with

ELEGANCE PUSH 2Go

Introducing the new *Elegance Push2Go*, the only hinged security screen door lock to feature external keyless privacy locking.

Conventional hinged security screen door locks often feature two stage key locking - the first stage is privacy and the second stage is deadlocking.

The all new *Elegance Push2Go* replaces the need for a key to engage privacy locking with a simple push of the button. The door is then privacy locked (not deadlocked) from the outside.

The door can be unlocked from the inside with the turn snib and unlocked from the outside with a key.
