

TWO & FOUR POINT LOCK

The Schlage Four Point Mortice Lock is a new and improved design providing better operation along with extra security and weather tightness. When four locking points are engage via lifting the handle lever up, the lower and upper rods create additional security and seal compression. Compatible with the Brio 288 Lever Handle door furniture also available to order through Alspec

Key Features

- Provides up to four points of locking including the latch, deadbolt and shootbolts
- Shootbolts can be thrown before or after locking the deadbolt
- Easy re-handing without removal of latch head
- Adjustable latch projection without removal of latch head
- Four point shoot bolt connectors flush with lock case (same routing as two point)
- Smooth latching action - soft latch spring allows lighter closing
- Smooth locking action - redesigned deadbolt mechanism
- Positive handle feedback - independently sprung hub
