midnight anytime blackout blind*

MIDNIGHT ANYTIME BLACKOUT BLINDS

MidnightAnytimeBlackoutBlinds have been stylishly and practically designed to meet the demands of both domestic and commercial markets. An extremely durable blackout blind system that offers total privacy and better sleep. There is no light leakage so your room is beautifully dark.

The patented pelmet venting system allows air to pass over and around the blind in all directions while trapping the light, significantly reducing the incidence of fabric blow-out caused by air-conditioners and unsealed windows.

The blind can almost disappear into the existing window frame or reveal, giving you the sleek architectural look, we all dream of in our homes.

PRODUCTS

CLOUD9

Perfectly balanced blinds that enable you to easily pull down or push up your blinds without the need for chains. This blind is stylish and safe.

ESMART

Enjoy the ease of remote control of your blinds. Open or close your blind from the convenience of your bed, bath or lounge. It can be linked to smart home systems and is compatible with both Google Home and Alexa.

TRANSFORMA

This product is easily retrofitted to your existing blackout blinds. It's a cost effective alternative that repurposes your existing roller blinds that is easy to operate, looks good and is child safe. What makes them so safe? The chain runs inside a protective channel keeping it away from little fingers.

delivering an extremely durable blackout blind system that offers total privacy & better sleep
