

CUSTOMER TECHNICAL MEMO # 275

Subject APT26 / APT27 Altitude Screen
Adaptors

Date: October 2016

Author: Product Development Team

We are pleased to advise that based on customer feedback we have undertaken a slight modification to APT26 & APT27, the screen adaptors for Altitude to improve the engagement of powder coated sections.

The modifications are minor and involve an undercut to the mating face to allow for paint build up while still allowing full engagement with the framing.

There will be no change to sections numbers, codes, pricing etc.

Kind Regards

Product Development Team
