

TECHNICAL MEMO # 308

Internal use only

Subject HD28 H.D Deep Interlock

Date: 27th October 2017

Author: Product Development Team

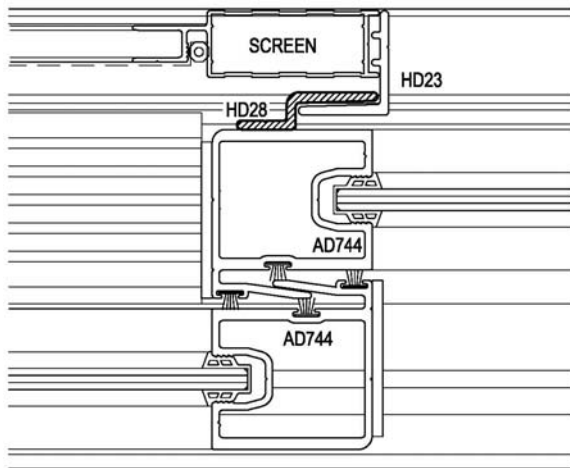

We are please to advise we have developed a new heavy duty screen interlock section, HD28. HS28 is for use with ProGlide specifically when used with the clip in screen adaptors AD787, AD788 and AD789.

Previously when using HD22 interlock, it required a packer back to the door interlocks. HD28 no longer requires a packer.

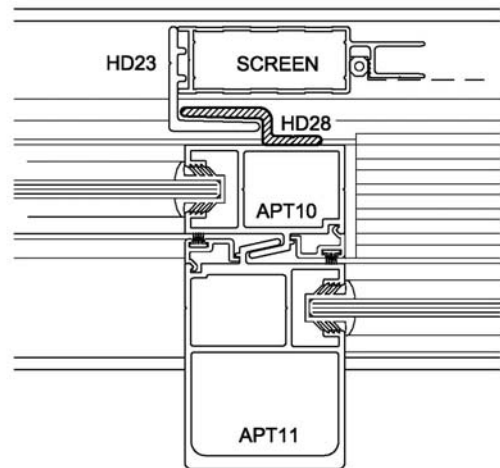

HD28 can also be used in Altitude.

CODE	DESCRIPTION	DIE DETAIL	MASS	AP	PP
1410228	H.D DEEP INTERLOCK	INEX 23332	0.323	100	100

HD28 HD Deep Interlock has been added to V6 and AIQ. It has been added to the latest Wall Charts, and will be updated in Tech Manuals when next updated.
