

The Heta hardware range was inspired by the curved coastline in NSW. A blend of contemporary design and functionality, the curved design features are soft to touch and create seamless operating movements. A stylish and cost-effective solution.

**Designed in Australia.**  
**Inspired by Australia.**

## HETA SLIDING SECURITY LOCK

## Heta Sliding Security Lock

### Operation:

A reliable mortice lock for sliding security doors with a zinc diecast hook beak that is retracted by an outside or inside snib lever. Closing the door causes the hook beak in the lock to self latch and engage with the catch plate automatically. Once the beak is engaged, it may be locked (or unlocked) from either side by key.

### Special Features:

- Zinc diecast beak and catch plate as a standard feature for superior performance.
- Interior snib lever for quick and convenient locking without the need for a key.
- Fixing screws only accessible from the inside, providing enhanced security.
- Anti-lift pin on the catch plate engages lock body to prevent the door being lifted out of its tracks.

### INTERNAL

### LOCKBODY

### Multipoint:

Heta Sliding Lock body may be connected to multipoint kits to provide three-point locking. These kits provide a top and a bottom bolt, each connected to the main lock body by a steel rod. The remote bolts are activated whenever the door is locked by key or snib (see next page for details).

### Installation Features:

- Fits into industry standard cut-outs.
- Standard lock fits door frames from 19mm to 25mm thick.
- Suits both left-hand and right-hand sliding doors.
- Fitting instructions can be downloaded from [www.alspec.com.au](http://www.alspec.com.au) or QR code.

### Keying:

- Accepts Alspec euro profile lazy cam cylinders.
- Can be keyed alike.

### Finishes:

A range of powder coated finishes available as shown below.

ALSPEC CODE	DESCRIPTION
1308157	HETA SLIDING SEC LOCK - BLACK
1308158	HETA SLIDING SEC LOCK - WHITE
1308159	HETA SLIDING SEC LOCK- PRIMROSE
1308186	HETA SLIDING SEC LOCK - MONUMENT

## Heta Sliding Security Lock

### Multipoint Kits

Uses steel rods

### Door Cutout Details

Prepare the door according to the table and diagram below to suit the application.

ALSPEC CODE	DESCRIPTION	SETTING	[A]	[B]
1395005	HETA SLIDING DOOR MULTI POINT KIT(ROD OPERATED)	HIGH	546mm	961mm
		LOW	961mm	546mm

Tolerance +/- 3mm

The Alspec multi-point kit comes with high and low connecting rods. Select the appropriate rods for the application.

	TOP ROD	BOTTOM ROD
HIGH	570mm	993mm
LOW	985mm	578mm

## Cylinders used for Security Doors

### Key Features:

- Five-pin lazy cam euro cylinder
- C4 keyway profile
- Supplied with two keys
- Non-handed cylinder
- Keyed alike
- Removable cap for easy re-pinning cylinder
- Available in Bright Chrome Plated and Black finish
