

CUSTOMER TECHNICAL MEMO # 496

Subject: McArthur Evo Centre Pocket Framing Update

Date: 30th November 2021

Author: The Design Team

We are pleased to advise the following technical manuals have been updated and should replace your existing technical manuals:

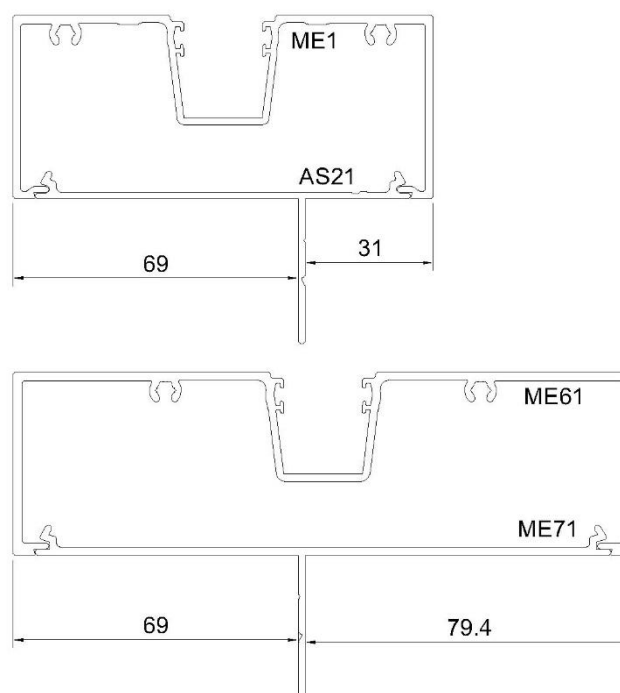

- **McArthur Evo 101.6mm CPF** November2021, Revision
- **McArthur Evo 150mm CPF** November2021, Revision

Please see below the new extrusions that have been added to the technical manual:

CODE	DESCRIPTION	MASS	AP	PP
1600738	ME27 101.6mm FLASHING ADAPTOR	0.598	279	161
1600716	ME71 150mm FLASHING ADAPTOR	0.957	380	209

The ME27 – 101.6mm Flashing Adaptor has been designed with the reveal to be exactly in the middle of the adaptor. This will enable fabricators to avoid confusion when assembling the reveal.

The ME71 – 150mm Flashing Adaptor has been designed so the reveal is back 69mm which is the reverse of the AS21. Please see below picture example.

The McArthur Evo Centre Pocket Framing Technical Manuals, Wall Charts and .dwg
/.dxf files have been updated on the Alspec website.

If you have any questions, please do not hesitate to contact your local Alspec Area
Manager or Sales Office.
