

Classic Sliding Window

Classic Sliding Window

The Carinya Classic Sliding Window is a unique combination of form and function not previously available in the residential category.

To maximise the performance and life of your window, proprietary commercial rollers are used that have been tried and proven in commercial applications such as schools and offices. This ensures that your windows will always be easy to open, even with large sashes and heavier glass options.

Key Features

- Exclusive handle located on the mullion for ease of access and cleaner lines.
- In built weather flaps - a feature of all Carinya windows - to reduce air and water infiltration, cover drain slots and minimise insect intrusion.
- Proprietary adjustable, non-corrosive roller system - the 'engine room' of these high performance windows - provides an effortless gliding motion that makes the window a joy to operate.
- Anti-lift block fitted above the sash to prevent manipulation and increase security.
- Mullion and transom end caps that ensure insects have no place to hide.

Technical Specifications

Maximum sash height	1500mm
Maximum sash width	1200mm
Maximum single glazed thickness	10.5mm
Maximum double glazed thickness	18mm
Maximum sash weight	40kg
